[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Software Engineer and Entrepreneur specializing in mobile (Flutter) and web (Django) development. Experienced in designing scalable cross-platform applications and engineering end-to-end Machine Learning pipelines. Proven ability to architect, launch, and autonomously manage commercial tech solutions, including a live e-commerce platform. Seeking to leverage technical expertise and analytical problem-solving skills to drive efficiency within a professional corporate environment.

EDUCATION

Leading University

Bachelor of Science in Computer Science and Engineering; CGPA: 3.25 / 4.00

Thesis: EthnoFace: AGECE Facial Attribute Detection using Deep Learning

Sylhet, Bangladesh

Aug 2022 – June 2026

Motijheel Govt. Boys' High School

Secondary School Certificate (SSC); GPA: 5.00 / 5.00

Dhaka, Bangladesh

2017

TECHNICAL SKILLS

AI & Machine Learning: End-to-End Pipelines, Deep Learning (CNN, ANN), NLP, Data Processing.

Mobile & Web: Flutter, Django, React.js, HTML5, CSS3, Tailwind CSS, Android (Java/Kotlin).

Programming Languages: Dart, Python, C/C++, Java, JavaScript, PHP, SQL.

Databases & Cloud: PostgreSQL, Supabase, Firebase, PythonAnywhere.

Tools & OS: Linux (Ubuntu), macOS, Git/GitHub, VS Code, MS Office Suite.

PROFESSIONAL EXPERIENCE

Soseu Cake Business

Founder & Lead Full-Stack Developer

Architected and manage a profitable e-commerce platform, ensuring 99% server uptime for a growing user base.

Programmed the backend infrastructure exclusively using Python and Django, deployed via PythonAnywhere.

Dhaka, Bangladesh

2023 – Present

bdapps

Junior Developer (Part-time)

Contribute to cross-platform application development, resource integration, and secure deployment procedures.

Conducted a workshop program for 100 students.

Dhaka, Bangladesh

Present

TECHNICAL PROJECTS

ConnectBD | Flutter, Django

Pioneered a unified communication directory built simultaneously for iOS, Android, and Web platforms.

Ongoing

BooksMart App | Flutter, AI Integration

Developed a comprehensive marketplace featuring secure payment gateways and live order tracking.

Engineered an AI-driven recommendation engine to deliver personalized book summaries based on user behavior.

Completed

AGEC Detector | Python, CNNs, Data Scraping

Spearheaded the ML lifecycle, scraping and processing 75,000+ images to train demographic classification models.

Patient History System | Flutter, Firebase

Constructed a digital health record system prioritizing secure, real-time data storage and rapid retrieval for medical staff.

RESEARCH & PUBLICATIONS

Accepted Paper: "A Machine Learning Framework for Multi-Class Diabetes Prediction Using Stacking Ensemble and SHAP Explainability"

Ongoing Research: "EthnoFace" – Developing a predictive model for facial attribute detection via Deep Learning.

CERTIFICATIONS

Flutter App Development | Full Stack Web (Python/Django/React) | PHP & Laravel | Blockchain and more
